

Important Update on Isofield Blazer/Isofield Blazer LT

In line with Isofield's mission of continuous product improvement, we are happy to share some important updates with you in relation to the Isofield Blazer (Product Code: 10630) and Isofield Blazer LT (Product Code: 10630LT)

These references have recently been awarded PPE Cat III Certification.

The above-mentioned products have complied with the PPE Regulation (EU) 2016/425 through the Harmonized European Standard EN ISO 21420:2020, EN ISO 374-1: 2016 +A1 and EN ISO 374-5: 2016.

Whilst there are no changes to the product, materials or manufacturing process, having the Blazer range accompanied by a PPE CAT III Certification gives Isofield end users added assurance that the product is rigorously tested and validated for use under the most stringent standards on the market.

Please see the attached with some important updates to the packaging, which now, under EU regulations requires Isofield to insert testing data and iconography.

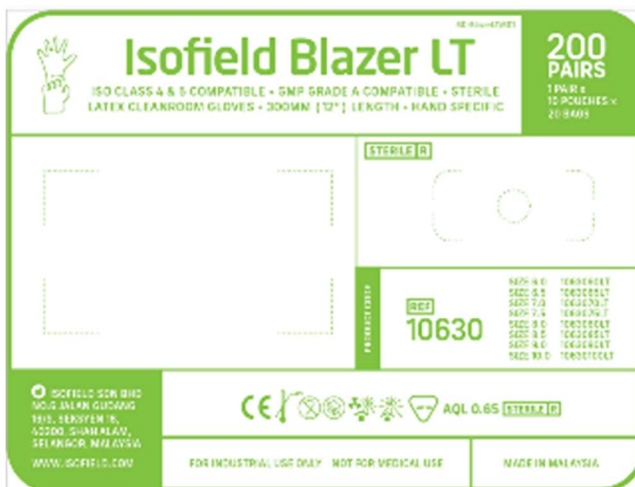

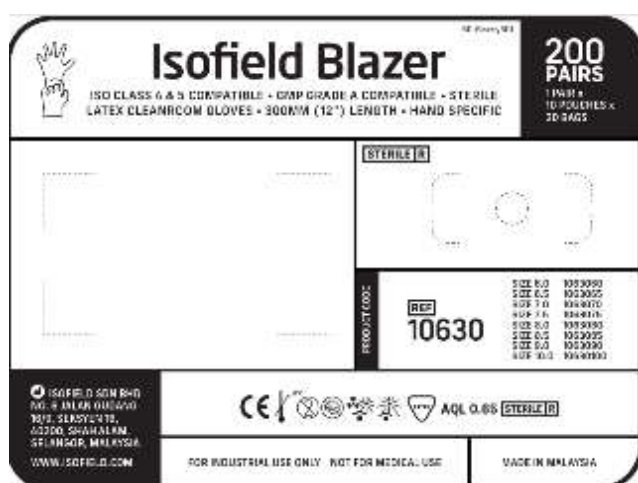

The codes, product description and other packaging design elements remain unchanged.

This is a rolling implementation and we expect the transition to the updated design completed by 30th May 2024.
