Important Update on Product Shelf Life

The Isofield range of cleanroom gloves listed in the table below will have their shelf life extended from 3 years to 5 years. This extension is supported by in-depth real-time stability studies and evaluations conducted by referencing the EN 455-4 standard.

There are no changes to the product, materials or manufacturing process except for the expiry stated on the product. It will be a running change therefore, once we have depleted our stock with 3 years expiry, we will start supplying new stock with 5 years expiry.

Lot numbers across all Isofield Cleanroom Gloves from **240076** onwards will carry the new expiry of 5 years.
