

Important Update on Product Shelf Life

The Isofield range of cleanroom facemasks listed in the table below have had their shelf life extended from 3 years to 5 years. Extension of the expiry will commence from the lots mentioned below against each product. This extension is supported by evaluations conducted according to inhouse and international test methods on

1. Physical properties of facemask
2. Seal integrity of packaging material
3. Sterility of the facemask
4. Smell of the facemask
5. Helmke drum cleanliness classification of the facemask

There have been no changes made to the product, packing materials, sterilization supplier or manufacturing process except for the expiry stated on the product.
