

Important Update on Isofield Kits Range

In line with Isofield's commitment to continuous improvement, we are happy to advise that we have improved the packing configuration of our Isofield Kits Range (product codes listed in Table 1 below) to ease the handling of the product.

All kits will now be packed in 2 separate carton liners with 20 kits per liner except for sizes 3XL and 4XL where there will be 18 kits per liner and 17 kits per liner respectively in a carton. The change is depicted in the photos below and will take effect from Lot # 250168 onwards.

There are no changes to the product, materials, or manufacturing process except for the packing quantity per carton liner.

Product Code	Product Description
